...

Run: %ProgramFiles(x86)%\Microsoft Visual Studio\Installer\resources\app\layout\InstallCleanup.exe -i; This will clean up only instance data such as the installation directory and state. This will make re-installing the instance faster since any workloads and components you had installed would remain cached and would not be re-downloaded.

Cleaning up corrupt Visual Studio instances | Visual ...

It will clean and then build the solution from scratch. It will be ignoring anything it's done before. The difference between this and "Clean, followed by Build" is that Rebuild will clean-then-build each project, one at a time, rather than cleaning all and then building all.

What Is The Difference Between Build, Rebuild And Clean In ...

Clean solution load When a solution is closed, its state is saved so that next time you open it, Visual Studio can restore the collapsed/expanded state of projects and folders in Solution Explorer and reopen the documents that were left open.

Little great things about Visual Studio 2019 | Visual ...

The difference is the way the build and clean sequence happens for every project. Let's say if your solution has two projects, proj1 and proj2. If you do a rebuild it will take proj1, clean (delete) the compiled files for proj1, and build it. After that it will take the second project proj2, clean the compiled files for proj2, and

compile proj2.

Build solution vs. Rebuild solution vs. Clean solution ...

There's a built-in Visual Studio feature called Clean Solution but it doesn't delete them all. This is my way to for deleting all BIN and OBJ folders recursively. Create an empty file and name it DeleteBinObjFolders.bat Copy-paste code the below code into the DeleteBinObjFolders.bat

Deleting All BIN & OBJ Folders in a Visual Studio Solution

Visual Studio 2019 has taken this to the next level by introducing an option to run a predefined set of code clean up actions on an individual file or on all files in a project/solution and this option is available in visual studio status bar, Analyse Menu or on your right-click context menu of file/project/solution.
