We Need to Talk

How to Have Conversations That Matter *HarperCollins*

"WE NEED TO TALK." In this urgent and insightful book, public radio journalist Celeste Headlee shows us how to bridge what divides us--by having real

conversations BASED ON THE TED TALK WITH OVER 10 MILLION VIEWS NPR's Best Books of 2017 Winner of the 2017 Silver Nautilus Award in Relationships & Communication "We Need to Talk is an important read for a conversationally-challenged, disconnected age. Headlee is a talented, honest storyteller, and her advice has helped me become a better spouse, friend, and mother." (Jessica Lahey, author of New York Times bestseller *The Gift of Failure*) Today most of us communicate from behind electronic screens, and studies show that Americans feel less connected and more divided than ever before. The blame for some of this disconnect can be attributed to our political landscape, but the erosion of our conversational skills as a society lies with us as individuals.

And the only way forward, says Headlee, is to start talking to each other. In *We Need to Talk*, she outlines the strategies that have made her a better conversationalist—and offers simple tools that can improve anyone's communication. For example: BE THERE OR GO ELSEWHERE. Human beings are incapable of multitasking, and this is especially true of tasks that involve language. Think you can type up a few emails while on a business call, or hold a conversation with your child while texting your spouse? Think again. CHECK YOUR BIAS. The belief that your intelligence protects you from erroneous assumptions can end up making you more vulnerable to them. We all have blind spots that affect the way we view others. Check your bias before you judge

someone else. HIDE YOUR PHONE. Don't just put down your phone, put it away. New research suggests that the mere presence of a cell phone can negatively impact the quality of a conversation. Whether you're struggling to communicate with your kid's teacher at school, an employee at work, or the people you love the most—Headlee offers smart strategies that can help us all have conversations that matter.

We Need to Talk About Kevin *Catapult*

The inspiration for the film starring Tilda Swinton and John C. Reilly, this resonant story of a mother's unsettling quest to understand her teenage son's deadly violence, her own ambivalence toward motherhood, and the explosive link

between them remains terrifyingly prescient. Eva never really wanted to be a mother. And certainly not the mother of a boy who murdered seven of his fellow high school students, a cafeteria worker, and a much-adored teacher in a school shooting two days before his sixteenth birthday. Neither nature nor nurture exclusively shapes a child's character. But Eva was always uneasy with the sacrifices and social demotion of motherhood. Did her internalized dislike for her own son shape him into the killer he's become? How much is her fault? Now, two years later, it is time for her to come to terms with Kevin's horrific rampage, all in a series of startlingly direct correspondences with her estranged husband, Franklin. A piercing, unforgettable, and penetrating

exploration of violence and responsibility, a book that the Boston Globe describes as “impossible to put down,” is a stunning examination of how tragedy affects a town, a marriage, and a family.

We Need To Talk About Kevin *Profile Books*

Eva never really wanted to be a mother; certainly not the mother of the unlovable boy who murdered seven of his fellow high school students, a cafeteria worker and a teacher who tried to befriend him. Now, two years later, it is time for her to come to terms with marriage, career, family, parenthood and Kevin's horrific rampage in a series of startlingly direct correspondences with her absent husband, Franklyn. Uneasy with the

sacrifices and social demotion of motherhood from the start, Eva fears that her alarming dislike for her own son may be responsible for driving him so nihilistically off the rails.

We Need to Talk: A Memoir about

Wealth *Xeno Books*

"We Need to Talk: A Memoir About Wealth gives voice to an experience millions share, but no one discusses: what it's like to be rich. The book is an honest, personal story that explores the hidden impact of wealth on identity, relationships, and sense of place in the world. Too often, we link net-worth to self-worth and keep quiet about how our finances make us feel. Money is a taboo subject. The author hopes We Need to Talk becomes a catalyst for conversation that demystifies wealth, gets us talking on a personal level, and confirms we are ninety-nine percent the same. In 1991, at twenty-six years old, Jennifer took a job at Microsoft and got lucky. She met her future husband, David, and the stock options she was granted were worth

hundreds of thousands of dollars. His were worth far more. Years later, when David joined a small, unknown start-up called Amazon.com, she got lucky again. They both did. They were in their early thirties and had tens of millions of dollars. It was amazing. The freedom and benefits were obvious. But after growing up saving her pennies and being wary of the rich, Jennifer was embarrassed to have joined their ranks. She wasn't worried about being liked for her money, she was worried about being hated for it. People looked at her differently. She didn't know how to ensure her children stayed motivated and not entitled, was shocked when a friend asked for \$25,000, discovered philanthropy isn't as straightforward as just writing a check, and grappled with the meaning of

enough. For years, she didn't share her dilemmas with others for fear of being judged. No one talks about money-but we should"--

America, We Need to Talk *Seven Stories Press*

The newest book by Joel Berg--an internationally recognized leader and media spokesman in the fields of hunger, poverty, food systems, and U.S. politics, and the director of Hunger Free America--*America We Need to Talk: A Self-Help Book for the Nation* is both a parody of relationship and self-help books and a serious analysis of the nation's political and economic dysfunction. Explaining that the most serious--and most broken--relationship is the one between us, as Americans, and

our nation, the book explains how, no matter who becomes our next president, average Joes can channel their anger at our hobbled system into concrete actions that will fix our democracy, rebuild our middle class, and restore our stature in the world as a beacon of freedom and hope. Starting with the belief that it's irresponsible for Americans to blame the nation's problems solely on "the politicians" or "the system," Joel makes a case for how it's the personal responsibility of every resident of this country to fix it. The American people are in a relationship with their government and their society, and, as in all relationships, it's the responsibility of both sides to recognize and repair their problems.

Need to Talk about Love *Bloomsbury Publishing*

As featured on Sunday Brunch and Woman's Hour 'A really interesting proper analysis of the ins and outs of love. A kind of marvellous feat.' Richard Curtis Poets, philosophers and artists have been trying to explain romantic love for centuries, but it remains one of the most complex and intimidating terrains to navigate. Most people are afraid to be open and honest about their relationships until now. For We Need to Talk About Love, Laura Mucha has interviewed hundreds of strangers, from the ages of 8 to 95 in more than 40

countries, asking them to share their most personal stories, feelings and insights about love. These intimate and illuminating conversations raised important questions, such as: How does your upbringing influence your relationships? Does love at first sight exist? Should you 'just know'? What should you look for in a partner? Is monogamy natural? Why do people cheat? How do you know when it's time to walk away? Drawing on psychology, philosophy, anthropology and statistics, We Need to Talk About Love combines evidence, theory and everyday experience and is the perfect read for anyone who is curious about how we think, feel and behave when it comes to love.

We Need to Talk Eye Books (US&CA)

It's 2019 in Sudleigh, a market town not far from the south coast. It's not a bad place to live, provided the new housing development doesn't ruin it, but most residents are too caught up in their own disappointments, grudges, and sores to notice. Former lounge musician Frank

wants to pass his carpet business to his nephew Joe, killing the boy's dream to become a chef. Sharp-elbowed phone-sex operator Heather will stop at nothing to become the manager of the golf club. Gap-year Tom is cleaning toilets but finding unexpected solace in his Chinese house-share. Miss Bennett keeps putting her house on the market when she doesn't want to move. Do they all know how their lives are linked? Meticulously observed, *We Need to Talk* offers a jigsaw puzzle of unwitting connections for the reader to assemble. The finished picture is a hyper-real, unflinchingly honest portrait of multi-jobbing, gig-economy Middle England on the eve of Covid, confirming some preconceptions while gently upsetting others.

We Need to Talk About Africa

The harm we have done, and how we should help *Simon and Schuster*

If you boil a kettle twice today, you will have used five times more electricity than a person in Mali uses in a whole year. How can that be possible? Decades after the colonial powers withdrew Africa is still struggling to catch up with the rest of the world. When the same colonists withdrew from Asia there followed several decades of sustained and unprecedented growth throughout the continent. So what went wrong in Africa? And are we helping to fix it, or simply making matters worse? In this provocative analysis, Tom Young argues that so much has been misplaced: our guilt, our policies, and our aid. Human

rights have become a cover for imposing our values on others, our shiniest infrastructure projects have fuelled corruption and our interference in domestic politics has further entrenched conflict. Only by radically changing how we think about Africa can we escape this vicious cycle.

Speaking of Race

Why Everybody Needs to Talk About Racism—and How to Do It *HarperCollins*

A Boston Globe Most Anticipated Fall Book In this urgently needed guide, the PBS host, award-winning journalist, and author of *We Need to Talk* teaches us how to have productive conversations about race, offering insights, advice, and support. A self-described “light-skinned Black Jew,” Celeste Headlee has been forced to speak about race—including

having to defend or define her own—since childhood. In her career as a journalist for public media, she’s made it a priority to talk about race proactively. She’s discovered, however, that those exchanges have rarely been productive. While many people say they want to talk about race, the reality is, they want to talk about race with people who agree with them. The subject makes us uncomfortable; it’s often not considered polite or appropriate. To avoid these painful discussions, we stay in our bubbles, reinforcing our own sense of righteousness as well as our division. Yet we gain nothing by not engaging with those we disagree with; empathy does not develop in a vacuum and racism won’t just fade away. If we are to effect meaningful change as a society, Headlee

argues, we have to be able to talk about what that change looks like without fear of losing friends and jobs, or being ostracized. In *Speaking of Race*, Headlee draws from her experiences as a journalist, and the latest research on bias, communication, and neuroscience to provide practical advice and insight for talking about race that will facilitate better conversations that can actually bring us closer together. This is the book for people who have tried to debate and educate and argue and got nowhere; it is the book for those who have stopped talking to a neighbor or dread Thanksgiving dinner. It is an essential and timely book for all of us.

So You Want to Talk About Race Seal Press

In this New York Times bestseller, Ijeoma Oluo offers a hard-hitting but user-friendly examination of race in America. Widespread reporting on aspects of white supremacy -- from police brutality to the mass incarceration of Black

Americans -- has put a media spotlight on racism in our society. Still, it is a difficult subject to talk about. How do you tell your roommate her jokes are racist? Why did your sister-in-law take umbrage when you asked to touch her hair -- and how do you make it right? How do you explain white privilege to your white, privileged friend? In *So You Want to Talk About Race*, Ijeoma Oluo guides readers of all races through subjects ranging from intersectionality and affirmative action to "model minorities" in an attempt to make the seemingly impossible possible: honest conversations about race and racism, and how they infect almost every aspect of American life. "Oluo gives us -- both white people and people of color -- that language to engage in clear,

constructive, and confident dialogue with each other about how to deal with racial prejudices and biases." -- National Book Review "Generous and empathetic, yet usefully blunt . . . it's for anyone who wants to be smarter and more empathetic about matters of race and engage in more productive anti-racist action." -- Salon (Required Reading)

The Art of Conversation

A Guided Tour of a Neglected Pleasure *Penguin*

Read Catherine Blyth's posts on the Penguin Blog. Reclaim the pleasures and possibilities of great conversation with this sparkling guide from the witty pen of an Englishwoman wise to its art Every day we use cell phones and computers to communicate, but it's easy to forget that we possess a communication technology that has been in research and development for thousands of years. Catherine Blyth points out the sorry state of disrepair that conversation has fallen into-and then, taking examples from history, literature, philosophy,

anthropology, and popular culture, she gives us the tools to rebuild. The Art of Conversation isn't about etiquette, elocution, or knowing how to hold your teacup with your little finger crooked just so. It's about something simple and profound: connecting. Conversation costs nothing, but can bring you the world, because it transcends the ability to talk to anyone. What transforms encounters into adventures is how we listen, laugh, flirt, and flatter. Blyth celebrates techniques for reading and changing minds, whether you're in a bar or a boardroom. As Alexander Pope nearly wrote, "True ease in talking comes from art, not chance, as those move easiest who have learned to dance." When you have read The Art of Conversation, you'll not only know the

steps, but hear the music like never before.

reckons with our country's many fraught relationships--with history, money, pain, and pleasure, which are in turn augmented by factors like luck, compassion, and values--in terms of how they determine the health of those in the world's richest country. Well represents a radical new approach to Americans' ingrained understanding of health. It examines the forces that are not typically part of the health discussion--but should be--and is a clarion call for where the country goes from here"--

Listen, We Need to Talk

How to Change Attitudes about LGBT Rights *Oxford University Press*

American public opinion tends to be sticky. Although the news cycle might

temporarily affect the public's mood on contentious issues like abortion, the death penalty, or gun control, public opinion toward these issues has remained remarkably constant over decades. There are notable exceptions, however, particularly with regard to divisive issues that highlight identity politics. For example, over the past three decades, public support for same-sex marriage has risen from scarcely more than a tenth to a majority of the population. Why have people's minds changed so dramatically on this issue, and why so quickly? It wasn't just that older, more conservative people were dying and being replaced in the population by younger, more progressive people; people were changing their minds. Was this due to the influence of

elite leaders like President Obama? Or advocacy campaigns by organizations pushing for greater recognition of the equal rights of Lesbian, Gay, Bisexual, and Transgender (LGBT) people? Listen, We Need to Talk tests a new theory, what Brian Harrison and Melissa Michelson call The Theory of Dissonant Identity Priming, about how to change people's attitudes on controversial topics. Harrison and Michelson conducted randomized experiments all over the United States, many in partnership with equality organizations, including Equality Illinois, Georgia Equality, Lambda Legal, Equality Maryland, and Louisiana's Capital City Alliance. They found that people are often willing to change their attitudes about LGBT rights when they find out

that others with whom they share an identity (for example, as sports fans or members of a religious group) are also supporters of those rights-particularly when told about support from a leader of the group, and particularly if they find the information somewhat surprising. Fans of the Green Bay Packers football team were influenced by hearing that a Packers Hall-of-Famer is a supporter of LGBT rights. African Americans were influenced by hearing that the Black president of the United States is a supporter. Religious individuals were influenced by hearing that a religious leader is a supporter. And strong partisans were influenced by hearing that a leader of their party is a supporter. Through a series of engaging experiments and compelling evidence,

Listen, *We Need to Talk* provides a blueprint for thinking about how to bring disparate groups together over contentious political issues.

We Need to Talk About . . . Kevin Bridges *Penguin UK*

The comic autobiography of 2014 A

comedian's autobiography? I wonder if he's ever used humour to deflect from his insecurities? To avoid being bullied? Is there heartache behind the humour? I wonder if he's a manic-depressive? Tears of a clown? Yes, all of that. Discover the hilarious life-story of one of Britain's best-loved comedians in Kevin Bridges' brilliant memoir. 'First of all, I have never written a book before, you probably haven't either, so there we have it; a connection is established between reader and writer . . .' Aged just 17, Kevin Bridges walked on stage for the first time in a Glasgow comedy club and brought the house down. He only had a five-minute set but in that short time he discovered that he really could earn a living from making people laugh. Kevin began life as a shy, nerve-ridden school-

boy, whose weekly highlights included a cake-bombing attack by the local youths. Reaching his teens, he followed his true calling as the class clown, and was soon after arrested for kidnapping Hugh Grant from his local cinema on a quiet Saturday night. This was a guy going somewhere - off the rails seeming most likely. Kevin's trademark social commentary, sharp one-liners and laugh-out-loud humour blend with his reflections on his Glaswegian childhood and the journey he's taken to become one of the most-loved comedians of our time. '. . . Hopefully now you'll take this over to the till and I can accompany you for the next wee while. That's the benefit of book shops, reading the little bit and then deciding if the author deserves to be part of your carefully selected 3 for 2

deal, or part of your plane journey, train journey, your next bath, your next shite.' Praise for Kevin Bridges: 'The Best Scottish Stand up of his Generation.' The Scotsman 'A wonderfully dry and deadpan Glaswegian comic . . . one the most exciting talents to have emerged from Scotland since Billy Connolly' Guardian 'Kevin Bridges might just become the best stand-up in the land . . . he will go and deliver a one-liner that you want to jot down and frame' The Times 'Wonderfully sharp, assured stand-up from the preternaturally gifted young comic' Independent

Vishnu's Crowded Temple

India Since the Great Rebellion *Yale University Press*

As it enters its sixtieth year of independence, India stands on the threshold of superpower status. Yet India is strikingly different from all other global colossi. While it is the world's most populous democracy and enjoys the benefits of its internationally competitive high-tech and software industries, India also contends with extremes of poverty, inequality, and political and religious violence. This accessible and vividly written book presents a new interpretation of India's history, focusing particular attention on the impact of British imperialism on Independent India. Maria Misra begins with the rebellion against the British in 1857 and tracks the country's advance to the present day. India's extremes persist, the author argues, because its

politics rest upon a peculiar foundation in which traditional ideas of hierarchy, difference, and privilege coexist to a remarkable degree with modern notions of equality and democracy. The challenge of India's leaders today, as in the last sixty years, is to weave together the disparate threads of the nation's ancient culture, colonial legacy, and modern experience.

We Need to Talk about Religious Education

Manifestos for the Future of RE

Jessica Kingsley Publishers

Although Religious Education (RE) is a legal requirement in UK schools, it is an oft-neglected and misunderstood subject. It is important to seriously re-think this key subject at this time of low religious literacy and rising extremism, to protect communities from the consequences of hatred and misunderstanding. This book promotes a public discussion of what exactly is needed from a new model of RE within our education system to benefit wider society. In this edited collection, the chapters are diverse and future-facing, informed by theory and practice and written by a variety of key leading practitioners and emerging national leaders in RE. It covers the most

pressing and urgent issues for RE such as hate speech, educational reform, and the weakening of moderate religious institutions.
