Ks2 Science Paper Spinners

I was so surprised at how well these easy paper spinners (or paper helicopters) worked, they take less than two minutes to put together, spin amazingly well and inspire some great investigations.They are also part of my Tray a Day series, so do follow along on the Science Sparks Facebook page.. I've also got lots more easy paper science challenges you might like to try.

Forces and Motion - Easy Paper Spinners - Science Sparks

The fact that all objects fall at the same speed without air resistance has children in a spin in this session. Children ask their own question to investigate about their paper spinners and work together scientifically to find answers. Suitable for Year 6 pupils. Find other lesson plans and resources at www.hamilton-trust.org.uk.

Spinner investigation | Teaching Resources

The paper spinner spins as it falls. When it starts its fall, the air pressure under the wings increases (air resistance). This causes an upward force underneath the wings which slows the spinner down. The increased pressure also causes a sideways push on the vertical part at the top of the spinner (where the pink dot is).
