Connie Newman, MD, on New Data on Lipids and Levothyroxine

New guidelines: Cholesterol should be on everyone's radar, beginning early in life. Exposure to high blood cholesterol over a lifetime can increase the risk for heart attack or stroke, and new scientific guidelines say managing this waxy, fat-like

substance in the blood should be a concern for all ages. The guidelines, published Saturday in the journal *Circulation*, are meant to help health care providers prevent, diagnose and treat high cholesterol.

New guidelines: Cholesterol should be on everyone's radar ...

Lipid guidelines aimed at reducing risk of atherosclerotic CV disease (ASCVD) have been issued in recent years by ESC and jointly by the American College of Cardiology and American Heart Association. The topics addressed by the European and US expert teams are similar, but conclusions often differ.

2019 ESC/EAS

Guidelines for Management of Dyslipidemias ...

February 4th, 2019. About one in three Americans has high cholesterol. The body needs cholesterol to function normally, but too much of this waxy, fat-like substance builds up in the arteries and may lead to serious problems like heart attack and stroke. The American College of Cardiology and the American Heart Association recently released new guidelines to help physicians and their patients take a more proactive — and personalized — approach to their cardiovascular risks.

What should I know about new cholesterol guidelines ...

The 2018 Cholesterol Guideline is a full revision of the 2013 ACC/AHA Guideline on the Treatment of Blood Cholesterol to Reduce Atherosclerotic Cardiovascular Risk in Adults. The following resource contains tables and figures from the 2018 Guideline for the Management of Blood Cholesterol.

2018 Guideline on the Management of Blood Cholesterol
