The Structuralist Theory Of Inflation

There is another important theory of inflation known as structural inflation which explains inflation in the developing-countries in a slightly different way. The structuralists argue that increase in investment expenditure and the expansion of money supply to finance it are the only proximate and not the ultimate factors responsible for inflation in the developing countries.

2 Structural theory of inflation • Myrdal and Streeten have contributed to this theory of inflation. • To explain inflation in less developed countries, especially Latin America. • Structural defects exist in less developed countries, • Therefore the traditional QTM does not apply to less developed countries. Prabha Panth 3. 3 Structure of Less developed countries 1.

Structuralist theory of inflation - SlideShare

This paper argues that three main elements form the basis of both the Latin American and the European branches of the structuralist school of inflation theory. These elements are: (1) relative prices that change when economic structure changes; (2) downward inflexibility of (some) money prices; and (3) a passive money supply closing the deflationary gap caused by price increases.

The structuralist explanation in the theory of inflation ...

According to structural theory of inflation, market power is one of the factors that cause inflation, but it is not the only factor. The supporters of structural theories believed that the inflation arises due to structural maladjustments in the county or some of the institutional features of business environment.

STRUCTURAL THEORY OF INFLATION

The structuralists hold the view that inflation is necessary with growth. According to this view, as the economy develops, rigidities arise which lead to structural inflation. In the initial phase, there are increases in non-agricultural incomes accompanied by high growth rate of population that tend to increase the demand for goods.

Structural Inflation: Useful notes on Structural Inflation!

Inflation, in economics, collective increases in the supply of money, in money incomes, or in prices. Inflation is generally thought of as an inordinate rise in the general level of prices. From a theoretical view, at least four basic schemata commonly used in considerations of inflation can be distinguished. The quantity theory

inflation | Definition, Theories, & Facts | Britannica

Structuralist economics is an approach to economics that emphasizes the importance of taking into account structural features when undertaking economic analysis. The approach originated with the work of the Economic Commission for Latin America and is primarily associated with its director Raúl Prebisch and Brazilian economist Celso Furtado. Prebisch began with arguments that economic inequality and distorted development was an inherent structural feature of the global system exchange. As such,

The structuralist theory of inflation and structural ...

The paper also highlights how later works by structuralist economists gradually stripped the inertial inflation approach of its previous substance and form, thereby unearthing tensions among Latin American structuralists that led to the eventual decline of this research program.

A SECOND-GENERATION STRUCTURALIST TRANSFORMATION PROBLEM ...

STRUCTURAL INFLATION THEORY "STRUCTURAL" inflation arise due to unstable and slower growth rate of export in the economy which is inadequate to support the required growth rate of the economy. A uniform rate of growth of money wages throughout the economy must lead to permanent cost pressures in the service sector, which is assumed to have the lower productivity growth. Thus, structural inflation results from supply inelasticities leading to rise in agricultural prices and costs.

Theories of Inflation - SlideShare

In contrast to macroeconomic theories which emphasize 'excess demand' and growth inflation, structural theories relate primarily to stagflation. While most macroeconomists share a common belief in the ideal type of 'profit maximization,' structural theorists differ widely in their views on what motivates economic actors.
