Amazon.com: Using Multivariate Statistics (4th Edition ...

Many statistical books, particularly multivariate ones, are, - let's face it- boring, heavy-going and ugly. Formulae are used as if to terrify and frighten, not to illustrate or show, and textual passages are all too often chock full of outright fibs such as 'it will be clear that', or, 'the reader will see

that' or - a sure sign that something truly monstrous is to follow - 'it is obvious that'.
