Does climate change cause wars? - The Washington Post

In numerical terms, a 1% increase in temperature leads to a 4.5% increase in civil war in the same year and a 0.9% increase in the following year. By the year 2030, based on averaged data from the 18 climate models used, this will

translate to approximately a 54% increase in armed conflict incidence in the region.

Does Climate Change Cause Conflict? - Our World

Climate change, by altering the world's physical landscape, is also changing its geopolitical landscape. If governments are unable to mitigate this, the risks of conflict and instability will increase, and become more difficult to manage. This is the case in many regions around the globe. However, the Horn of Africa is particularly vulnerable, given a combination of structural fragilities and the significant exposure to climate change risks.

Climate change raises conflict concerns

In short, climate change may exacerbate socio-economic stresses such as loss of arable land, resource scarcities, forced migration and weakening institutions, all of which could make a violent escalation of inter- and intrastate conflicts more likely.

Climate change and conflict - Climate2020

The causes of armed conflict are never straightforward, but, according to the UN, they're primarily driven by ethnic hostilities or extreme abuses of power involving land grabs, resource exploitation, and corruption. In recent years, another cause of conflict has been gathering a frightening degree of force — climate change.

5 Recent Conflicts That Were Made Worse By Climate Change

The double front line of climate change and conflict pushes people out of their homes, disrupts food production and

supplies, amplifies diseases, malnutrition and weakens health-care services. Of the 20 countries ranked the most vulnerable and the least ready to adapt to climate change by the ND-Gain Index, 12 are in conflict.

Climate change and conflict | ICRC

Changes in climate will produce unique types and modes of conflict, redefine the value of important resources, and create new challenges to maintaining social order and stability. This book examines the consequences of climate change and argues that it has and will produce two types of different types of conflict: 'cold wars' and 'hot wars'.

Climate Change and Armed Conflict: Hot and Cold Wars - 1st ...

Although the government and IGO-sponsored writing on climate change fails to cite convincing sources for a link to armed conflict, a literature is just beginning to emerge, as evidenced by the five articles that follow. This literature outlines several possible causal chains from climate change to conflict.
