Globalization Definition Processes And Concepts

Concepts of Globalization The rest of this chapter looks at the meaning of globalization. Defining globalization is important because it affects other issues discussed in this book, such as when globalization started. Globalization is a powerful discourse or ideational force.

Introduction: Concepts of Globalization

Defined broadly, globalization is the process of integrating nations and peoples—politically, economically, and culturally—into a larger community. In this broad sense, it is little different from internationalization.

Definition and conceptualization - Globalization

Globalization is tending to make the technologies and the knowledge for this process to occur more readily available, and therefore to enable the process to be telescoped in time. (Singapore may be a small country, but there is no previous case in history of any country that did not enjoy massive resource discoveries going from stark poverty to affluence in under 30 years.)

Globalization: The Concept, Causes, and Consequences | PIIE

"Globalization a process where people, companies, and governments from different nations interact and integrate through international trade and investments has effects on the environment, culture, political systems, economic development and on the human physical well-being in societies around the world".

Globalization: The Concept, Causes, and Consequences ...

Globalization is an interconnected web of social, economic, political, cultural, and technological processes. However, this definition is extremely broad, and the number of connotations and views on globalization is nearly endless. Globalization can also be thought of as a flow of people, capital, goods, and ideas.
