Learn Redux Middleware Helps Solve Logging & Dispatch ...

To describe Redux's middleware let's refer to its official documentation: Redux middleware solves different problems than Express or Koa middleware but in a conceptually similar way. It provides a third-party extension point between dispatching an action, and the moment it reaches the reducer.

A Redux Middleware Example: Promise-Based API Over ...

A middleware is called by passing two arguments, store dispatch and get state function. The middleware call then returns a function which becomes the input of the next middleware method which may or may not call the next action. In the chain, the final middleware is given the actual dispatch method and the chain ends.
