What is Human Nature? - Definition, Theories & Examples ...

Man is by nature a cultural animal since he is a self-cultivating, self- reflective, “self-conditioning” animal and attains to the full development of his natural potentialities, and exercises his distinctively human functions only insofar as he lives a cultural life.

HUMAN NATURE AND THE CULTURAL PROCESS

Based on the insight that the class of mathematical models specified by evolutionary theory can be applied not only to genes, but to many other forms of information transmission, cultural evolutionary theory posits that human cultures do not vary, change and remain stable at random, but that cultural information is itself subject to evolutionary forces.

The Cultural Evolution of Human Nature | SpringerLink

An Effort Against Nature . Several modern authors—such as Rousseau—saw the process of education as a struggle against the most eradicated tendencies of human nature. Humans are born with wild dispositions, such as the one of using violence to achieve one’s own goals, to eat and behave in a disorganized fashion, and/or to act egotistically. Education is that process which uses culture as an antidote against our wildest natural tendencies; it is thanks to culture that the human species ...

The Nature-Culture Divide - ThoughtCo

Turning conventional wisdom on its head, the author argues that culture shaped human evolution. Contrary to theories that depict the individual's relation to society as one of victimization, endless malleability, or just a square peg in a round hole, he proposes that the individual human being is designed by nature to be part of society. Moreover, he argues that we need to briefly set aside the endless study of cultural differences to look at what most cultures have in common - because that ...
