dealing with a tragic secret: her mother, Linda, was suffering from a rare form of dementia that slowly crippled her ability to talk, write and eventually recognize people in her own family. *Where the Light Gets In* tells the full story of Linda's illness—called primary progressive aphasia—from her early-onset diagnosis at the age of 62 through the present day. Kim draws a candid picture of the ways her family reacted for better and worse, and how she, her father and two siblings educated themselves, tried to let go of shame and secrecy, made mistakes, and found unexpected humor and grace in the midst of suffering. A teenager yearns to escape her roots—but feels like an outsider with the wealthy family that takes her in—in this novel from a Booker Prize finalist. “Sixteen-year-old Australian exchange student Louise (Lou) is ecstatic that she has left behind her rough family, who mock her for using big words, and their tiny flat choked with cigarette smoke. Placed in a wealthy Chicago suburb, in a pristine McMansion with the Harding family, Lou is stunned by the glossy perfection: ‘There are so many healthy, good-looking teenagers that a few crooked teeth, or short, fat fingers, suddenly take on the proportions of

deformities.' The Hardings are earnest and warm, but Lou's high-strung insecurity and wary independence begin to widen the cracks in her host family's strained domesticity, particularly when Lou turns increasingly to booze and drugs . . . Lou's furious, first-person voice is filled with piercing observations that beautifully balance Lou's teenage detachment and aching, intelligence and self-absorption, yearning and recklessness. And like Holden Caulfield, with whom she invites inevitable comparison, Lou is unmerciful toward those satisfied with easy answers." —Booklist

In the bosom of Happy Utah Valley, Keira Shae and her family weren't like everybody else. Their home was filthy, their mother was absent, and their cupboards were bare. What began as a disadvantaged existence quickly crumbled as Keira and her siblings grew

death in 2016 was felt around the world by the many fans and followers who would miss his warmth, humour, intellect, and piercing insights. Leonard Cohen, *Untold Stories* chronicles the full breadth of his extraordinary life. This third and final volume in biographer Michael Posner's sweeping series of Cohen's life—*That's How the Light Gets In*—explores the last thirty years of his life, starting with the late 1980s revival of his music career with the successful albums *I'm Your Man* and *The Future*. Personally, Cohen suffers the traumatic end of his long relationship with French photographer Dominique

Issermann and begins a public romance with actress Rebecca De Mornay. When that relationship ends in 1993, as Cohen is about to turn sixty years old, he begins a deeply spiritual phase, entering the Mount Baldy monastery under the tutelage of Zen master Joshu Sasaki Roshi—arguably the most important relationship in Cohen's life. Ever the seeker, he then goes to Mumbai in 1999, the first of half a dozen trips to India to investigate Advaita Vedanta Hinduism, expanding his growing fascination with spirituality. In 2008, Cohen makes his triumphant return to the concert stage, and for five years travels the world in an extraordinary final act of his life, giving almost four hundred performances over three continents. The book provides the first full chronicle of Cohen's final

months, fighting debilitating disease, while still creating three new studio albums, adding to his remarkable legacy. Cohen's story is told through the voices of those who knew him best—family and friends, colleagues and contemporaries, business partners and lovers. Bestselling author Michael Posner draws on hundreds of interviews to reveal the unique, complex, and compelling figure of the man The New York Times called “a secular saint.” This is a book like no other, about a man like no other.

#1 New York Times bestselling author Louise Penny pulls back the layers to reveal a brilliant and emotionally powerful truth in her latest spellbinding novel. When an intricate old map is found stuffed into the walls of the bistro in Three Pines, it at first seems no more than a curiosity. But the closer the villagers look, the stranger it becomes. Given to Armand Gamache as a gift the first day of his new job, the map eventually leads him to shattering secrets. To an old friend and older adversary. It leads the former Chief of

Homicide for the Sûreté du Québec to places even he is afraid to go. But must. And there he finds four young cadets in the Sûreté academy, and a dead professor. And, with the body, a copy of the old, odd map. Everywhere Gamache turns, he sees Amelia Choquet, one of the cadets. Tattooed and pierced. Guarded and angry. Amelia is more likely to be found on the other side of a police line-up. And yet she is in the academy. A protégée of the murdered professor. The focus of the investigation soon turns to Gamache himself and his mysterious relationship with Amelia, and his possible involvement in the crime. The frantic search for answers takes the investigators back to Three Pines and a stained glass window with its own horrific secrets. For both Amelia Choquet

and Armand Gamache, the time has come for a great reckoning.

The authors of The Rust Programming Language, members of the Rust Core Team, share their knowledge and experience to show you how to take full advantage of Rust's features--from

installation to creating robust and scalable programs. You'll begin with basics like creating functions, choosing data types, and binding variables and then move on to more advanced concepts, such as:

- Ownership and borrowing, lifetimes, and traits
- Using Rust's memory safety guarantees to build fast, safe programs
- Testing, error handling, and effective refactoring
- Generics, smart pointers, multithreading, trait objects, and advanced pattern matching
- Using Cargo, Rust's built-in package manager, to build, test, and document your code and manage dependencies
- How best to use Rust's advanced compiler with compiler-led programming techniques

You'll find plenty of code examples throughout the book, as well as three chapters

Architectural Science and the Sun *Routledge*

Architectural Science and the Sun synthesizes physics, climate, program, and perception to provide a foundation in the principles of architectural science related to the sun: solar geometry, solar analysis and design techniques, passive design principles, and daylighting. Part analytical handbook, part inspiration source for schematic design, the content

comprises a critical component of effective sustainable design. Beyond the purely technical aspects of these topics, Architectural Science and the Sun begins with the premise that great architecture goes beyond energy performance and the visual-aesthetic to engage all of the senses. Given that the stimuli to which our senses respond are physical phenomena such as light, heat, and sound, the designer must manipulate these parameters through the craft of building form and technology to create the desired qualitative experience. This book is designed to help the reader develop that skill.

Harriet Said *Open Road Media*

The infamous Parker-Hulme murder case inspired this frightening tale of

adolescent transgression in an English seaside town. When a thirteen-year-old girl returns from boarding school to her small hometown in Merseyside for summer break, her best friend, Harriet, is not back yet, and she's restless, anxious for something—anything—to happen. In this state of troubled anticipation, she visits the beach and encounters Peter Biggs, an elegant yet disheveled man in the throes of middle age and an unhappy marriage. A stirring inside of the budding woman makes her feel irresistibly attracted to this man . . . and simultaneously repulsed. But she doesn't dare do anything about it until Harriet arrives. One year older and much more mischievous, Harriet returns to find her friend in a state of confused obsession. The two girls hatch a plan to

“humble” Biggs. At Harriet’s command they proceed to methodically spy on him and his wife, manipulate his desires, and ensnare him in an act of incriminating humiliation, all on the premise that this will be their most daring summer yet. But the power these young women possess is perhaps more sinister and unwieldy than anyone realizes. Award-winning British author Beryl Bainbridge’s first novel, *Harriet Said* is loosely based on the Parker-Hulme teenage murder case in New Zealand dramatized in the Kate Winslet film *Heavenly Creatures*. It was originally completed in 1958; however, editors were so scandalized by its gruesome and amoral content that the book was not published until 1972. It has since become a horror classic.

The Nature of the Beast *Minotaur Books*

The *Nature of the Beast* is a New York Times bestselling Chief Inspector Gamache novel from Louise Penny. Hardly a day goes by when nine year old Laurent LePage doesn't cry wolf. From alien invasions, to walking trees, to winged beasts in the woods, to dinosaurs spotted in the village of Three Pines, his tales are so extraordinary no one can possibly believe him. Including Armand and Reine-Marie Gamache, who now live in the little Quebec village. But when the boy disappears, the villagers are faced with the possibility that one of his tall tales might have been true. And so begins a frantic search for the boy and the truth. What they uncover deep in the forest sets off a sequence of events that

leads to murder, leads to an old crime, leads to an old betrayal. Leads right to the door of an old poet. And now it is now, writes Ruth Zardo. And the dark thing is here. A monster once visited Three Pines. And put down deep roots. And now, Ruth knows, it is back. Armand Gamache, the former head of homicide for the Sûreté du Québec, must face the possibility that, in not believing the boy, he himself played a terrible part in what happens next.

A Fatal Grace *Minotaur Books*

Winner of the 2007 Agatha Award for Best Novel! From the Dagger award winning author Louise Penny comes the second Armand Gamache mystery set in the stunning countryside of Quebec. Welcome to winter in Three Pines, a

picturesque village in Quebec, where the villagers are preparing for a traditional country Christmas, and someone is preparing for murder. No one liked CC de Poitiers. Not her quiet husband, not her spineless lover, not her pathetic daughter—and certainly none of the residents of Three Pines. CC de Poitiers managed to alienate everyone, right up until the moment of her death. When Chief Inspector Armand Gamache, of the Sûreté du Québec, is called to investigate, he quickly realizes he's dealing with someone quite extraordinary. CC de Poitiers was electrocuted in the middle of a frozen lake, in front of the entire village, as she watched the annual curling tournament. And yet no one saw anything. Who could have been insane enough to try such a

macabre method of murder—or brilliant enough to succeed? With his trademark compassion and courage, Gamache digs beneath the idyllic surface of village life to find the dangerous secrets long buried there. For a Quebec winter is not only staggeringly beautiful but deadly, and the people of Three Pines know better than to reveal too much of themselves. But other dangers are becoming clear to Gamache. As a bitter wind blows into the village, something even more chilling is coming for Gamache himself.

How the Light Gets In *Oxford University Press*

How the Light Gets In: Ethical Life I presents a systematic account of the teachings of the Christian faith to offer a vision, from a human, created, and limited perspective, of the ways all things might be understood from the divine perspective. It explores how Christian doctrine is lived, and the way in which beliefs are not simply cognitive sets of ideas but embodied cultural practices. Christians learn how to understand the contents of their faith, learn the language of the faith, through

engagements that are simultaneously somatic, affective, imaginative, and intellectual. In the first of four volumes, Graham Ward examines the complex levels of these engagements through three historical developments in the systematic organization of doctrine: the Creeds, the Summa, and Protestant dogmatics. He outlines a methodology for exploring and practicing systematic theology that captures how the faith is lived in cultural, social, and embodied engagements. Ward then unpicks several fundamental theological concepts and how they are to be understood from the point of view of an engaged systematics: truth, revelation, judgement, discernment, proclamation, faith seeking understanding, and believing as it relates to and grounds the

possibilities for faith. This groundbreaking work offers an interdisciplinary investigation through poetry, art, film, the Bible and theological discourse, analysing the human condition and theology as the deep dream for salvation. The final part relates theology as a lived and ongoing pedagogy concerned with individual and corporate formation to biological life, social life, and life in Christ. Here an approach to living theologically is sketched that is the primary focus for all

four volumes: ethical life.
