Astrology The Space Age Science

Astrology and astronomy were
 archaically treated together (Latin:
 astrologia), and were only gradually
 separated in Western 17th century
 philosophy (the "Age of Reason") with
 the rejection of astrology. During the
 later part of the medieval period,
 astronomy was treated as the foundation
 upon which astrology could operate.

PSI Astronomy Unit: Astrology--The Space Age Science?

In some ways, astrology may seem scientific. It uses scientific knowledge about heavenly bodies, as well as scientific sounding tools, like star charts. Some people use astrology to generate expectations about future events and people's personalities, much as scientific

ideas generate expectations. And some claim that astrology is supported by evidence — the experiences of people who feel that astrology has worked for them.

Astrology: Is it scientific?

Astrology & Science. Though we don't know how it works physically, astrology is not a faith. You can experience, observe and know how it applies first hand. There are sound reasons why it has proved so difficult to test the real practice of astrology under scientific conditions and why so many tests have been flawed. However, some simple ...
