## PM Series Power Module Power Supply/Battery Charger

The PM Series of proportional DC to DC high voltage power supply modules provides designers a miniature low cost PCB mount solution with a nominal performance isolated HV output. The PM Series operates from an input voltage of 5VDC to 12VDC with either positive or negative polarity to ground. By proportionally controlling the input voltage to the module over this input range an output range of 40% to 100% is generated.
