Text and International Cases *Springer*
This book is devoted to the dynamic development of retailing. The focus is on various strategy concepts adopted by retailing companies and their implementation in practice. This is not a traditional textbook or collection of case studies; it aims to demonstrate the complex and manifold questions of retail management in the form of twenty lessons, where each lesson provides a thematic overview of key issues and illustrates them via a comprehensive case study. The examples are all internationally known retail companies, to facilitate an understanding of what is involved in strategic retail management and illustrate best practices. In the third edition, all chapters were revised and updated. Two new chapters were added to treat topics like corporate social responsibility as well as marketing communication. All case studies were replaced by new ones to reflect the most recent developments. Well-known retail companies from different countries, like Tesco, Zalando, Hugo Boss, Carrefour, Amazon, Otto Group, are now used to illustrate particular aspects of retail management.

Consumer-Centric Category Management

How to Increase Profits by Managing Categories Based on Consumer Needs *John Wiley & Sons*
In some parts of the world, especially in developing markets, category management today remains a stretch goal – a new idea full of untapped potential. In other areas, the original eight-step process that emerged in the late 1980's forms the foundation of many companies' approach to category management. In still others, particularly in developed countries like the U.S., the U.K., and others, refinements are being made – most of them designed to place consumer understanding front and center. New ideas are emerging – from "trip management" to "aisle management" to "customer management." Whether a new descriptor emerges to replace "category management" is yet to be seen. Even if that does happen, what won't change is the overall objective – to help retailers and their manufacturer partners succeed by offering the right selection of products that are marketed and merchandised based on a complete understanding of the consumers they are committed to serving. This book, which explores both the state of and the state-of-the-art in category management, is for everyone with a vested interest in category management. It can serve such a broad audience because category management is about bringing a structured process to how executives think and make decisions about their businesses, no matter what information and information technology they have access to.

Your Strategy Needs a Strategy

How to Choose and Execute the Right Approach *Harvard Business Review Press*
You think you have a winning strategy. But do you? Executives are bombarded with bestselling ideas and best practices for achieving competitive advantage, but many of these ideas and practices contradict each other. Should you aim to be big or fast? Should you create a blue ocean, be adaptive, play to win—or forget about a sustainable competitive advantage altogether? In a business environment that is changing faster and becoming more uncertain and complex almost by the day, it's never been more important—or more difficult—to choose the right approach to strategy. In this book, The Boston Consulting Group’s Martin Reeves, Knut Haanaes, and Janmejaya Sinha offer a proven method to determine the strategy approach that is best for your company. They start by helping you assess your business environment—how unpredictable it is, how much power you have to change it, and how harsh it is—a critical component of getting strategy right. They show how existing strategy approaches sort into five categories—Be Big, Be Fast, Be First, Be the Orchestrator, or simply Be Viable—depending on the extent of predictability, malleability, and harshness. In-depth explanations of each of these approaches will provide critical insight to help you match your approach to strategy to your environment, determine when and how to execute each one, and avoid a potentially fatal mismatch. Addressing your most pressing strategic challenges, you'll be able to answer questions such as: • What replaces planning when the annual cycle is obsolete? • When can we—and when should we—shape the game to our advantage? • How do we simultaneously implement different strategic approaches for different business units? • How do we manage the inherent contradictions in formulating and executing different strategies across multiple businesses and geographies? Until now, no book brings it all together and offers a practical tool for understanding which strategic approach to apply. Get started today.

Competing in Tough Times

Business Lessons from L. L. Bean, Trader Joe's, Costco, and Other World-Class Retailers (Paperback) *Financial Times/Prentice Hall*
In *Competing in Tough Times*, leading retail consultant Barry Berman systematically examines ten world-class retailers, identifying shared strategies that every retailer can use to drive dramatic, sustained performance improvement. Berman highlights what these widely diverse retailers have in common in terms of both operational cost structures and differentiation. He reveals how they've developed low-cost strategies without cutting crucial "muscle," better rationalized product selection, optimized human relations and the service experience, and taken full advantage of private labeling. He presents his recommendations in an easy-to-read decision-making format, supported by current data and detailed implementation guidance.

Managing the Retail Supply Chain

Merchandising Strategies that Increase Sales and Improve Profitability *Kogan Page Publishers*
Buying, merchandising and the supply chain are inextricably linked. Product merchandisers play a key role within retail, as profits can be affected by how successfully they undertake their work. Merchandisers set prices to maximise profits and manage the performance of ranges, planning promotions and mark-downs as necessary. They also oversee delivery and distribution of stock and deal with suppliers. Their connection with and understanding of the supply chain is vital. Supported by theories, explanations and real-life examples, *Managing the Retail Supply Chain* looks at concepts and core themes that run across all sectors. Many businesses use a one-size-fits-all solution for any issues which arise, leading to big problems. *Managing the Retail Supply Chain* presents numerous examples of different business models adopted by a variety of companies. Covering basic principles of retail supply chain, KPIs, merchandise planning and demand planning as well as omnichannel, vertical integration, on-shelf availability and e-commerce, *Managing the Retail Supply Chain* is an essential guide for anyone involved in or studying retail supply chains and merchandising.

Retail Marketing Management

Principles and Practice
'Retail Marketing Management covers all the essential theories needed to understand the complicated business of retail: from understanding the consumer and purchasing of the product through to store layout and communications. The writing style is easy to follow, and the text is supported by diagrams and case studies which enhance understanding and learning. I would recommend this book to anyone who wants to learn more about the retail business.' Nicole Dunlop, Course Director, London College of Fashion, UK Retail Marketing offers a contemporary approach that combines retail marketing theory, current retail management practice and international examples. It begins by looking at the nature of retailing as an activity and

then introduces retail marketing, followed by a discussion of consumer behaviour, the retail marketing mix, and other important issues such as location strategies, branding and ethics. The authors and expert contributors take an integrated approach to explaining the process of internationalisation, and the inclusion of international examples reinforces this approach. The book is ideal for undergraduate and postgraduate students taking courses in retailing, as well as those studying for marketing and business degrees where retail marketing is a core module. The blend of retail theory, practice and live examples will also be of interest to practitioners in retailing and related industries. Key features Case studies and seminar discussion questions in every chapter Chapters and vignettes by expert contributors with a combination of academic and industry experience Retail practitioner cases which emphasise practical aspects as well as key theories in retail marketing New models that help to visualise interactions

between marketing environments, retail marketing management decisions, and shopper behaviour Related online materials, including powerpoint slides About the authors Helen Goworek lectures in the School of Management at the University of Leicester, where she teaches postgraduate modules in marketing, including 'B2B Marketing and Supply Chain Management'. She is the author of two previous books about the fashion business, in addition to journal articles focusing on fashion buying and sustainability. Dr Peter McGoldrick has held four professorial posts in retailing, and is currently at the University of Manchester, UK. He has published several books and over 150 research papers and articles, which have appeared in the Journal of Retailing and Harvard Business Review, among others. Best Paper awards include those at the World Marketing Congress and the 2014 Academy of Marketing Science.
