A good estimate cost for a transmission rebuild at a shop is between \$1500 and \$3000 as of 2009. Doing it yourself would likely be under \$500, considering

that all you have to pay for are the parts, not the labor. There are many variables. A rebuild is taking the transmission out of the car, opening up the case, and visually inspecting each part.

What is the Cost to Rebuild a Transmission? | It Still Runs

Manual Transmission Service & Repair. A manual transmission has a clutch, which is responsible for transferring power from the engine to the transmission, allowing the driver to switch gears and control your driving experience. Compared to an automatic transmission, the manual transmission is mostly made up of mechanical gears that rely on the drive to shift. Manual transmission service is ...

Manual Transmission Service & Repair - Mister Transmission

Rebuilding a transmission often requires the use of a multi-ton press to get gears and bearings on and off a shaft. It's possible to take the shaft and parts to a garage and ask them to do it for a nominal fee, but it can be a hassle. I second the recommendation to source a replacement and only tear into your trashed one for educational purposes.

Honda CR-V | Transmission rebuild manuals

A transmission rebuild is a major mechanical overhaul done to a vehicle's transmission. A transmission, like a vehicle engine, is made up of a series of interrelated mechanical parts that wear out over time and with extended use. Rebuilding a vehicle's transmission replaces these worn parts without replacing the entire transmission.
