The First Principle in The Science of Getting Rich Increasing Life How Riches Come to You Gratitude Thinking in the Certain Way How to Use the Will Further Use of the Will Acting in the Certain Way Efficient Action Getting into the Right Business The Impression of Increase The Advancing Man Some Cautions, and Concluding Observations Summary of the Science of Getting Rich Inspiring quotes from The Science of Getting Rich: "The very best thing you can do for the whole world is to make the most of yourself." "You must get rid of the thought of competition. You are to create, not to compete for what is already created." "Get rich; that is the

best way you can help the poor." "Do all the work you can do, every day, and do each piece of work in a perfectly successful manner; put the power of success, and the purpose to get rich, into everything that you do" "Success in life is becoming what you want to be." "A man's way of doing things is the direct result of the way he thinks about things." "To get rich, you need only to use your will power upon yourself." Excerpt from chapter 1 - The Right to be Rich Whatever may be said in praise of poverty, the fact remains that it is not possible to live a really complete or successful life unless one is rich. No man can rise to his greatest possible height in talent or soul development unless he has plenty of money; for to unfold the soul and to develop talent he must have

many things to use, and he cannot have these things unless he has money to buy them with. A man develops in mind, soul, and body by making use of things, and society is so organized that man must have money in order to become the possessor of things; therefore, the basis of all advancement for man must be the science of getting rich. The object of all life is development; and everything that lives has an inalienable right to all the development it is capable of attaining. Man's right to life means his right to have the free and unrestricted use of all the things which may be necessary to his fullest mental, spiritual, and physical unfoldment; or, in other words, his right to be rich. In this book, I shall not speak of riches in a figurative way; to be really rich does not mean to

be satisfied or contented with a little. No man ought to be satisfied with a little if he is capable of using and enjoying more.

The Science of Getting Rich Kt Pub

Wallace D. Wattles spent a lifetime considering the laws of success as he found them in the work of the world's great philosophers. He then turned his

life effort into this simple, slender book - a volume that he vowed could replace libraries of philosophy, spirituality, and self-help for the purpose of attaining one definite goal: a life of prosperity. Wattles describes a definite science of wealth attraction, built on the foundation of one commanding idea: "There is a thinking stuff from which all things are made...A thought, in this substance, produces the thing that is imaged by the thought." In his seventeen short, straight-to-the-point chapters, Wattles shows how to use this idea, how to overcome barriers to its application, and how to work with very direct methods that awaken it in your life. He further explains how creation and not competition is the hidden key to wealth attraction, and how your power to get rich uplifts everyone around you.

SYSTEM FOR FINANCIAL SUCCESS. The secrets in this book were so powerful that many believe it should never be published, using the secret teachings of the Hindu scriptures, its author learned the secrets of the law of attraction by controlling the powers of the universe to generate wealth. As Byrne explained it on the web site of Oprah Winfrey, "Something inside of me had

me turn the pages one by one, and I can still remember my tears hitting the pages as I was reading it. It gave me a glimpse of The Secret. It was like a flame inside of my heart. And with every day since, it's just become a raging fire of wanting to share all of this with the world." The book is included in personal development scholar Tom Butler-Bowdon's list of "50 Success Classics" in his 2004 book of that name. The Science of Getting Rich (Hindi) *QFORD Books*

It is the desire of God that you should get rich. He wants you to get rich because He can express Himself better through you if you have plenty of things to use in giving Him expression. He can live more in you if you have unlimited

command of the means of life. The universe desires you to have everything you want to have. Nature is friendly to your plans. Everything is naturally for you. Make up your mind that this is true. God wants is that you should make the most of yourself, for yourself, and for others. And you can help others more by making the most of yourself than in any other way. You can make the most of yourself only by getting rich, so it is right and praiseworthy that you should give your first and best thought to the work of acquiring wealth. The ownership of money and property comes as a result of doing things in a certain way. Those who do things in this certain way, whether on purpose or accidentally, get rich. Those who do not do things in this certain way, no matter how hard they work or how

able they are, remain poor. It is a natural law that like causes always produce like effects. Therefore, any man or woman who learns to do things in this certain way will infallibly get rich. Rhonda Byrne, in her book, *The Secret*, tells how a 100-year-old book entered her life and changed it forever. Here is that book. Written in 1910, *The Science of Getting Rich* inspired Byrne to create her bestselling CD, and subsequently, to write her book. She has said that it gave me a glimpse of *The Secret*. It was like a flame inside of my heart. And with every day since, it's just become a raging fire of wanting to share all of this with the world. "There is a science of getting rich. It is an exact science, like algebra or arithmetic. There are certain laws which govern the process of acquiring riches.

Once a person learns and obeys these laws, he will get rich with mathematical certainty." --Wallace D. Wattles, *The Science of Getting Rich*)
