This book explains and elaborates the concept of alliance security dilemma through a case study of two similar countries caught in the same situation: Germany, which opposed the US decision to attack Iraq in 2003, and Japan, which supported it.

Alliance Security Dilemmas in the Iraq War - German and ...

The security dilemma, also referred to as the spiral model, is a term used in international relations and refers to a situation in which, under anarchy, actions by a state intended to heighten its security, such as increasing its military strength, committing to use weapons or making alliances, can lead other states to respond

with similar measures, producing increased tensions that create conflict, even when no side really desires it.

The Security Dilemma in Alliance Politics

The two countries' alliance security dilemma with the U.S., however, is not derived from the mere

presence or absence of external threats.

Instead, it is a product of: (1) the regional security environments along with U.S. security commitment to the two countries, (2) the type of alliance institutions to which each country belongs, and (3) the characteristics of their military institutions"--
