Introduction of Lexical Analysis - GeeksforGeeks

In linguistics, according to J. Richard et al., an error is the use of a word, speech act or grammatical items in such a way it seems imperfect and significant of an incomplete learning. It is considered by Norrish as a systematic deviation that happens when a learner has not learnt something, and consistently gets it wrong. However, the attempts made to put the error into context have always gone hand in hand with either language learning and second-language acquisition processes, Hendrickson
