Automatic Vs Focus

Even though autofocus, which is a function that automatically adjusts the lens of your camera to focus on the subject you're photographing, works very well most of the time, there are a few...

Ten Reasons When Manual Focus Is Better Than Auto Focus ...

Automatic: if you need a setting that sits somewhere between the two modes, automatic is probably the right choice. It's useful for when you're unsure if your subject will suddenly move or not. **How Does Autofocus Work?** In a manual focus camera, movements to the lens ring adjust the angle of two mirrors.

Photography Basics #4: Digital Auto Focus vs Manual Focus ...

When shooting portraits focus needs to be precise. The majority of your shots of people will need to have their eyes in perfect focus. Switching to manual focus will give you complete control to enable this rather than having to line up the focusing points on your camera on the eyes prefocussing by pressing halfway down and then having to frame your shot.

When is Manual Focus Better than Auto Focus?

What is the difference between Auto Focus and Fixed Focus? • Autofocus requires some mechanical movement to adjust the lenses to focus the desired object, but the fixed focus lens systems do not move. • The fixed focus system is always focused to infinity, but the auto focus system can be focused to distances ranging from almost zero to infinity.

Difference Between Auto Focus and Fixed Focus | Compare ...

Autofocus points are different from auto-focus modes. These are the points in your composition where the camera will try to grab focus. When you are looking through your viewfinder or Live View and press the shutter halfway, you'll see a little small black or red square (in some cameras it may be a dot) floating in your image.

Understanding Auto Focus Mode - Which Mode Should You Use?

An automatic car makes it easier to focus more on speed and road position - and you can keep both hands on the wheel as you won't have to change gear. You're also unlikely to stall in an automatic - which saves you the embarrassment of making a hash of hill starts or stalling just as the traffic lights change. Stalling an automatic transmission will only occur if there's a mechanical issue.
