Oracle APEX

When you install Oracle Database 12c Multitenant Architecture, Oracle Application Express is installed into the multitenant container database by default. A single multitenant container database can have up to 252 pluggable databases (PDBs). The container database root (CDB\$ROOT) includes an APEX_040200 schema which holds all of the common objects required for Application Express, including the Application Express engine packages, processes, functions and views.
