Schön's theory of reflective practice was developed in his seminal book 'The Reflective Practitioner: How Professionals Think in Action', first published in 1983 and

then republished in 1991. Unlike Kolb's (1984) reflective theory, Schön's theory is not a multi-stage or circular model of reflection.

The reflective practitioner - SOPPER.DK

Reflection is the process of making sense of an experience in order to learn and improve as a practitioner. 1 Often, we reflect as part of our everyday practice without being aware

that we are doing it – for example, on the way home from work. Using reflection within health and social care has benefits for patients and the profession. In order to do this effectively, reflection involves describing, analysing and evaluating experiences from practice in a way that helps you make sense of it.

Reflective practice is the ability to reflect on one's actions so as to engage in a process of continuous learning. According to one definition it involves "paying critical

attention to the practical values and theories which inform everyday actions, by examining practice reflectively and reflexively. This leads to developmental insight". A key rationale for reflective practice is that experience alone does not necessarily lead to learning; deliberate reflection on experience is essential. Refle

Reflective practice - Wikipedia

Schön defines reflective practice as the practice by which professionals become aware of their implicit knowledge base and learn from their experience. He talks about reflection in action and reflection action.
