Colorectal cancer is common in England and, with long-term survival relatively poor, improving outcomes is a priority. A major initiative to reduce mortality from the disease has been the introduction of the National Health Service (NHS) Bowel Cancer Screening Programme (BCSP). Combining data from the BCSP with that in the National Cancer Data Repository (NCDR) allows all tumours diagnosed in England to be categorised according to their involvement with the BCSP.

A retrospective observational study examining the ...

What is the abbreviation for Bowel Cancer Screening Programme? What does BCSP stand for? BCSP abbreviation stands for Bowel Cancer Screening Programme.

BCSP - Bowel Cancer Screening Programme

Screening can help detect bowel cancer at an early stage, when it's easier to treat. It can also be used to help check for and remove small growths in the bowel called polyps, which can turn into cancer over time. Types of screening test. There are 2 types of test used in NHS bowel cancer screening:
