Gestalt Theory - SlideShare

The principle of closure is key to understanding Gestalt theory. Gestalt theory overall states that the mind seeks to perceive a whole image, rather than the sum of its parts. How do we do that? We may “close the gaps” to give ourselves a single shape or image. This is the principle of closure. Take a look at this image. Your mind might automatically tell you that this is a soccer ball instead of a collection of pentagons.

Gestalt theory rested heavily on demonstrations appealing to the observer's perceptions (a form of nonanalytic introspection that references

philosophical phenomenology). This small group of refugees thus rejected both the methodological injunctions and the elementaristic, associationist assumptions of Behaviorism—assumptions that seemed to be synonymous with scientific method in their new country.

Gestalt Psychology - an overview | ScienceDirect Topics

Gestalt psychology began as a theory of perception, but it did not long remain within that confine. Indeed, its pioneers began almost immediately to enlarge it into a theory of psychology in general. A good illustration of this attempt to expand the theory is found in Kurt

Koffka's Principles of Gestalt Psychology, published in 1935.

Gestalt psychology: The Study of Perception Essay - Free ...

Gestalt psychology or gestaltism is a school of psychology that emerged in Austria and Germany in the early twentieth century based on work by Max Wertheimer, Wolfgang Köhler, and Kurt Koffka. As used in Gestalt psychology, the German word gestalt is interpreted as "pattern" or "configuration". Gestalt psychologists emphasized that organisms perceive entire patterns or configurations, not merely individual components. The view is sometimes summarized using the
