Investigator's Guide to Steganography - Gregory Kipper ...

During World War I there were several instances where steganography was used with success. One

method was called a Turning Grille, which enhanced Cardano's Grille. It looked like a normal grille, a square sheet of cardboard divided into cells with some of the cells punched out. To use the Turning Grille, the encoder would write the first sequence of letters, then rotate the grille 90 degrees and write the second sequence of letters, and so on, rotating the grille after each sequence.

World War I | Investigators Guide to Steganography

Steganography is the hiding of messages in plain sight, it hides a message within another message that looks like a normal message. This is different from Cryptography in which the secret message is converted to what looks like a meaningless jumble of characters. Example: You mail a letter. It currently takes 37 cents in postage.
