. . . And His Lovely Wife *Random House*

Writing with warmth and humor, Connie Schultz reveals the rigors, joys, and absolute madness of a new marriage at midlife and campaigning with her husband, Sherrod Brown, now the junior senator from Ohio. She describes the chain of events leading up to Sherrod's decision to run for the Senate (he would not enter the fray without his wife's unequivocal support), and her own decision to step down from writing her Pulitzer Prize-winning column during the course of one of the nation's most intensely watched races. She writes about the moment her friends in the press became not so friendly, the constant campaign demands on her marriage and family life, and a personal tragedy that came out of the blue. Schultz also shares insight into the challenges of political life: dealing with audacious bloggers, ruthless adversaries, and political divas; battling

expectations of a political wife; and the shock of having staffers young enough to be her children suddenly directing her every move. Connie Schultz is passionate and outspoken about her opinions—in other words, every political consultant's nightmare, and every reader's dream. THE BOOK: Getting to Yes is considered the reference for successful negotiations. It presents proven tools and techniques that can help you to resolve any conflict and find win-win solutions.
ABOUT THE AUTHOR: Roger Fisher (1922-2012) was an American professor at Harvard Law School. With his co-authors, he founded the Harvard Negotiation Project. William Ury is an anthropologist who works as a peace negotiator for corporations and governments worldwide. Bruce Patton is a Harvard lecturer and co-founder of Vantage Partners, an international consultancy firm that helps companies improve their negotiations.
INTRODUCTION: This is sometimes hard to imagine, but just a few decades ago decisions were rarely made as a result of discussions or negotiations. They were usually made by one person: whoever was in charge. Back then, the world was a place of hierarchy: at home, every decision concerning the family was made by the "wise father," and at work, everybody adhered to the path dictated by the company's boss. Today, such authoritarian structures are increasingly rare. Hierarchies are flatter, information is more accessible, and more and more people participate in decisions at all levels. Hence, it has become much more important for us to talk to others and include them in our decision-making processes. Politicians now talk to their voters, and companies encourage their employees to participate

in company decisions. Even parent-child interactions are becoming more democratic. In the age of Google, parents can no longer simply say, "Don't do this; it's unhealthy," because their child can just go online, find counterevidence and argue their claim. Today, finding agreements in any area of life means negotiating. Arguing with friends about which movie to see is very different to haggling over prices with suppliers or negotiating international arms embargos, yet in many ways all negotiations are similar to each other. By arming yourself with the right knowledge and tools, you can vastly improve the outcomes of all your negotiations. And since every day of your life involves some kind of negotiating, it's well worth your time to do so. Learn to negotiate well; everything is based on negotiations.

Giving Knopf

Here, from Bill Clinton, is a call to action. Giving is an inspiring look at how each of us can change the world. First, it reveals the extraordinary and innovative efforts now being made by companies and organizations—and by individuals—to solve problems and save lives both “down the street and around the world.” Then it urges us to seek out what each of us, “regardless of income, available time, age, and skills,” can do to help, to give people a chance to live out their dreams. Bill Clinton shares his own experiences and those of other givers, representing a global flood tide of nongovernmental, nonprofit activity. These remarkable stories demonstrate that gifts of time, skills, things, and ideas are as important and effective as contributions of money. From Bill and Melinda Gates to a six-year-old California girl named McKenzie Steiner, who organized and supervised drives to clean up the beach in her community, Clinton introduces us to both well-known and unknown heroes of giving. Among them: Dr. Paul Farmer, who grew up living in the family bus in a trailer park, vowed to devote his life to giving high-quality medical care to the poor and has built innovative public health-care clinics first in Haiti and then in Rwanda; a New York couple, in Africa for a wedding, who visited several schools in Zimbabwe and were appalled by the absence of textbooks and school supplies. They founded their own organization to gather and ship materials to thirty-five schools. After three years, the percentage of seventh-graders who pass reading tests increased from 5

percent to 60 percent;' Oseola McCarty, who after seventy-five years of eking out a living by washing and ironing, gave \$150,000 to the University of Southern Mississippi to endow a scholarship fund for African-American students; Andre Agassi, who has created a college preparatory academy in the Las Vegas neighborhood with the city's highest percentage of at-risk kids. "Tennis was a stepping-stone for me," says Agassi. "Changing a child's life is what I always wanted to do"; Heifer International, which gave twelve goats to a Ugandan village. Within a year, Beatrice Biira's mother had earned enough money selling goat's milk to pay Beatrice's school fees and eventually to send all her children to school—and, as required, to pass on a baby goat to another family, thus multiplying the impact of the gift. Clinton writes about men and women who traded in their corporate careers, and the fulfillment they now experience through giving. He writes about energy-efficient practices, about progressive companies going green, about promoting fair wages and decent working conditions around the world. He shows us how one of the most important ways of giving can be an effort to change, improve, or protect a government policy. He outlines what we as individuals can do, the steps we can take, how much we should consider giving, and why our giving is so important. Bill Clinton's own actions in his post-presidential years have had an enormous impact on the lives of millions. Through his foundation and his work in the aftermath of the Asian tsunami and Hurricane Katrina, he has become an international spokesperson and model for the power of giving. "We all have the capacity to do great things," President Clinton says. "My hope is that the people and stories in this book will lift spirits, touch hearts, and demonstrate that

citizen activism and service can be a powerful agent of change in the world."

Under the Gaze of God

Before being published as a small book, these "counsels of perfection" and spiritual notes by Blessed Edward Poppe (1890-1924), a Belgian priest whose cause for canonization is under way, had been transcribed a hundred times by hand by those who had tasted their flavor, vigor, and supernatural wisdom. Fresh and luminous, this little book has been a tremendous success in Dutch, French, Italian, and German; it now appears at last in English. Responding well to the needs of the faithful, it will become an inseparable vademecum for all those who wish to live "under the gaze of God."

When you finish it, you will already have an action plan for your next negotiation. You will know what to do and why. You will also begin building your own reputation as a negotiation genius.

99 Negotiating Strategies *Createspace Independent Publishing Platform*

This is the most complete catalogue of cutting-edge negotiating tactics ever published. This blockbuster work is written as a playbook, a field guide, so lawyers, sales professionals and other dealmakers will actively use it as negotiations proceed. Use the tactics individually or in combinations. Swap them in and out as negotiations proceed for maximum effectiveness, to keep your adversary off balance, to calm them, or to close the deal. Negotiations are fluid and the mood can change. Sticking to a single approach can lead to deal failure. Rosen says a superior negotiator always adjusts as a deal progresses, just as a winning coach makes in-game adjustments. There is no filler here. There are no war stories. This is not a biography of David Rosen's career. It is exactly what the title says - an easy-to-use directory of powerful negotiating tactics. Each technique is succinctly explained, many with useful examples. The descriptions range in length from a single paragraph to a few pages. While there are many very sophisticated principles at work in Rosen's catalogue of techniques, each is simply explained. This is not an academic work. It is a tool, a device, just like a notepad, a pen or a calculator, for dealmaking pros to reference constantly. Rosen

gets high marks for his opening discussion of ethics. The tactics he compiled here are extremely powerful, and readers should use caution in deciding how to apply them. Some incorporate powerful psychological principles and are proven to work based on decades of heavy academic research. To quote Rosen from the book's Authors Note, "Some negotiators may find ideas in this book too aggressive, but that is a matter of perspective. It is not a matter of right versus wrong, or ethical versus unethical. One may be a principled and hardcore competitive negotiator or an unprincipled, unethical collaborative negotiator. So a given negotiator's description of a tactic as too "aggressive" is really nothing more than his or her marking of the spot on the style continuum beyond which he or she no longer feels comfortable. Another negotiator might feel discomfort far short of that first negotiator's comfort spectrum. Others still may feel no discomfort even at the extremes." Who will benefit from this collection of advanced strategies? Lawyers, negotiators, sales organizations and sales professionals, business owners, mediators, and anyone involved in negotiating, dealmaking, selling, cold-calling, following up and closing deals. What will you learn? A small sample of the dozens of tactics: motivating others to buy, sell or reach other agreement; overcoming objections; creating or deflating a sense of urgency; helping opposing negotiators sell your deal to their own clients; overwhelming the opposition; and strategic uses of silence and indecision. But Rosen takes you far beyond that, and far beyond the other, generic books on the market. He introduces you to deeply-researched psychological principles, such as Prospect Theory, Coase Theorem, Asch Conformity principles and concepts like reciprocity, scarcity and

consistency. Each is simply explained in a way that teaches you how to use them to achieve superior outcomes. Other books on negotiating don't even address these critical topics. Rosen explains them and shows you how they work. Buy this guide, study it, and keep it with you. There are so many potent and compelling techniques that you'll never remember them all. One thing's for sure, however. Once you become familiar with Rosen's easy-to-understand strategies, you'll never negotiate without this book again.

The Art of Negotiation *Simon and Schuster*

A member of the world renowned Program on Negotiation at Harvard Law School introduces the powerful next-generation approach to negotiation. A member of the world-renowned Program on Negotiation at Harvard Law School introduces the powerful next-generation approach to negotiation. For many years, two approaches to negotiation have prevailed: the "win-win" method exemplified in *Getting to Yes* by Roger Fisher, William Ury, and Bruce Patton; and the hard-bargaining style of Herb Cohen's *You Can Negotiate Anything*. Now award-winning Harvard Business School professor Michael Wheeler provides a dynamic alternative to one-size-fits-all strategies that don't match real world realities. *The Art of Negotiation* shows how master negotiators thrive in the face of chaos and uncertainty. They don't trap themselves with rigid plans. Instead they understand negotiation as a process of exploration that demands ongoing learning, adapting, and influencing. Their agility enables them to reach agreement when others would be stalemated. Michael Wheeler illuminates the improvisational nature of

negotiation, drawing on his own research and his work with Program on Negotiation colleagues. He explains how the best practices of diplomats such as George J. Mitchell, dealmaker Bruce Wasserstein, and Hollywood producer Jerry Weintraub apply to everyday transactions like selling a house, buying a car, or landing a new contract. Wheeler also draws lessons on agility and creativity from fields like jazz, sports, theater, and even military science.
