Hi, I'm new here. I just have a simple question. Is the 1998 Ford Escort Zx2 DOHC an interference engine? The mechanic who told me to let him junk

the car seemed a little too anxious to have it when I took it in when my timing belt broke? Am I paranoid? I can't seem to find an answer to this question anywhere. Thanks.

The base spec 1.8 litre Zetec makes about 115bhp in standard trim. The 130bhp 1.8 is the same engine fitted with different camshafts, and this engine can be found in the Fiesta RS1800i. The cams are interchangeable, so a 115bhp unit will become a 130 with the addition of the better RS cams. For most people, the 2.0 engine is the engine to go for.

It is a 2.0 Zetec engine. No light on the dash, which is what I find weird. If it was a sensor then a light should be on, at least the "check engine" light (makes my

stomach sink when it comes on). The car has not had a thermostat since I got it four years ago. I think my dad either had it removed or we bought it without one back in 2002.
